**MEXICAN ADMITTED
KIDNAPPING MATHIS
PHYSICIAN, CLAIMED**

SAYD TO BE LEADING RANGERS TO WHERE BODY DR. RAMSEY COULD BE FOUND

By Associated Press.

San Antonio, Texas, Aug. 26.—A three month's search for Dr. J. A. Ramsey, physician of Mathis, ended Thursday forenoon when his body, bearing marks of violence, was exhumed from a shallow grave in an almost inaccessible spot six miles northwest of Mathis.

The discovery was made by a posse of San Patricio county officers, accompanied by a Mexican arrested at Laredo Wednesday who led them to the spot.

While a San Patricio county justice of the peace held an inquest, San Antonio officers were searching for H. J. Leahy, already under a murder charge in connection with Dr. Ramsey's disappearance.

After several hours questioning, according to George H. Atkins, of Beeville, who talked to Mathis authorities, the Mexican confessed to his part in the abduction of Dr. Ramsey, and agreed to lead officers to his grave.

Traversing almost inaccessible territory to the northwest of Mathis, during which horses had to be abandoned and the last few miles negotiated on foot, the man finally led officers to the spot.

According to Atkins, the Mexican under arrest made a statement involving another man in Dr. Ramsey's slaying.

After he had persuaded Dr. Ramsey to accompany him from his home on the night of May 23 the Mexican is alleged to have told officers, a man jumped on the running board of the car a few miles from Mathis, poked a pistol in Dr. Ramsey's face and held him thus until the isolated spot in the hills was reached.

After the physician had signed several papers, the Mexican is alleged to have told officers, he was knocked in the head and his throat cut.

Then the body was buried in the shallow grave.

By Associated Press. San Antonio, Texas, Aug. 26.—The body of Dr. J. A. Ramsey, Mathis physician, who disappeared last June, was found in a shallow grave eight miles from that town early Thursday, reports reaching San Antonio said. San Patricio county officers, it is said, were led to the grave by a Mexican who was arrested near Laredo Wednesday and taken to Mathis last night.

Coincident with the reported finding of the body, came a request to San Antonio officers to arrest Harry J. Leahy, who was charged some weeks ago with murder in connection with the physician's disappearance.

Although seen in San Antonio Wednesday afternoon, no trace of the man could be found Thursday morning.

Although Sheriff S. S. Hunt of Mathis declined to talk over the telephone, he would not deny that Ramsey's body had been found.

"We want to catch a man before we give the newspapers anything," he said.

Dr. Ramsey, aged physician, who formerly resided in Dallas, was taken from his home by a Mexican who said he wished a sick relative treated. The Mexican later was seen at Beeville, but Ramsey was not with him. The Mexican now under arrest, was said to be the man who took him away that night.

The motive of the crime has never been established.

Following the doctor's disappearance H. J. Leahy and Ed Leahy of Mathis, prominent in South Texas ranch circles, were arrested in connection with the case and H. J. Leahy was charged with murder and conspiracy to murder as well as two swindling counts. Bond for H. J. Leahy was first set at \$65,000, but later reduced to \$20,000, which he made.

Ed Leahy was charged with conspiracy to swindle, this charge arising out of alleged attempts to get the reward offered by Mrs. Ramsey for the return of her husband. He, too, is free on bond.

By Associated Press.

San Antonio, Aug. 26.—With a Mexican said to have admitted kidnapping Dr. J. A. Ramsey of Mathis, under arrest, and leading them, Texas Rangers and officers of border counties today resumed search for the body of the physician now said positively to have been killed when he was lured from his home last June.

Dr. Ramsey disappeared when he was called from his home in the night by a Mexican, who said he wanted him to visit a sick relative.

Since that time officers have been unable to pierce but slightly the veil of mystery surrounding the case.

Two men prominent in Dr. Ramsey's home town were arrested in connection with the case and released on bond.

Arrest of the suspect, believed to be the "mysterious Mexican" in

**MORGAN CITY, LA.
SEEMS TO HAVE BEEN
CENTER OF STORM
SEVERAL THOUSAND PEOPLE
PREPARED TO RETURN TO
THEIR HOMES TODAY**

By Associated Press.

New Orleans, Aug. 26.—Property damage in excess of \$1,000,000, two deaths and an inestimable amount of minor damage was the toll of the storm which roared across the Eastern Louisiana coast last night, reports said today. A number of persons were injured.

Damage to the rice, corn, sugar cane and cotton crops of LaFouche, Terrebonne, Jefferson, Plaquemine, Assumption and St. Mary parishes will reach \$1,000,000, the New Orleans States estimated and business houses and residences at Morgan City were damaged more than \$150,000.

Houses were unroofed at Lockport. Many homes were blown down at Houma, severe damage done to the Raceland sugar house and the steamer Houma of the Bradford Transportation Company was badly damaged.

High Tides Cause Overflow.

High tides caused waters to overflow at Morgan City Lockport, Houma and Raceland. The greatest fury of the storm was loosed in lower Terrebonne and LaFouche, ship captains said.

Train Arriving in New Orleans.

Train arriving in New Orleans today 13 hours behind schedule, reported that for miles they had been forced to stop intermittently to clear the tracks of telegraph poles and other debris.

The wind at New Orleans reached a velocity of 44 miles an hour although weather bureau officials said that occasional gusts attained a velocity of 60 miles an hour.

Concern was expressed for the safety of Chinese and Philippine fishermen at Manita Village, Fisher's Village, and other fishing villages along the Atchafalaya and the lower LaFouche.

Two Persons Killed.

Most of the places struck by the full blast of the storm are almost inaccessible except by a boat.

Two persons, a lineman in New Orleans and one in Gulfport died from injuries received when they came in contact with live wires.

The city of Baton Rouge spent the night in darkness, but the wind did no serious damage, reports from there said today. Several sheds were blown down and sugar cane and corn in that section were flattened by the wind.

More than a score of minor fires were reported here last night.

Railroads Hampered.

Lines of the Texas and Pacific, Missouri Pacific and Southern Pacific Railroads were still hampered today by high winds which made it unsafe to attempt to move trains across the Mississippi river aboard ferry boats. Five trains were delayed for the same reason last night.

Towns between Baton Rouge and New Orleans were seriously damaged, Yazoo and Mississippi Valley engineer said. At Lutcher, Garyville, Burnside, Gismer and numerous smaller towns the streets were littered with wreckage and virtually impassable.

Small farm houses, he said were unroofed and in some place torn from their foundations.

By Associated Press.

New Orleans, Aug. 26.—One person was known to be dead and several others slightly injured as a result of the tropical storm which swept New Orleans last night.

Weather Bureau officials said that the maximum velocity of the wind was 44 miles per hour and that the force of the storm had diminished rapidly after it passed inland from the Gulf of Mexico.

It reported central today between Shreveport and Vicksburg.

The first death from the storm came when a lineman was killed as he came in contact with a live wire. Other injuries reported early today were of a minor nature.

By Associated Press.

New Orleans, Aug. 26.—Several thousand persons who yesterday fled from their homes near the Gulf of Mexico in Louisiana and Texas, prepared to return today as Weather Bureau officials predicted that the tropical hurricane which came roaring out of the Gulf yesterday, would spend its force about 100 miles inland.

Louisiana residents today were busy checking the damage caused by the storm. Accurate totals were hard to obtain because wire communication was severely curtailed. Houses were unroofed in some sections and many trees were uprooted.

Barometers along the coast which had been falling steadily for more than a dozen hours, were rising today, showing that the center of

the case, was brought about by Constable Ed Villarreal and Night Marshal Candelaria Mendola at Laredo yesterday.

After the Mexican is said to have been unable to pierce but slightly the veil of mystery surrounding the case.

Two men prominent in Dr. Ramsey's home town were arrested in connection with the case and released on bond.

Arrest of the suspect, believed to be the "mysterious Mexican" in

**EXPLOSION IN
MINE ENTOMBS
MANY MEN IN
CLYMER**

By Associated Press.

Indiana, Pa., Aug. 26.—Between 50 and 60 miners were at work in the Sample Run Mine of the Clearfield Bituminous Coal Company at Clymer, Pa., late today when an explosion shattered the workings. Officials of the company here said their reports of the blast were meager. The fate of the miners was not known.

Flyer Taken to Hospital.

By Associated Press.

Bellefonte, Pa., Aug. 26.—Lieut. Cyrus K. Bettis, army flying ace, who was seriously injured when his plane ran into one of the peaks of Seneca Sister Mountains on Monday, today was taken to Walter Reed Hospital, Washington, in an ambulance airplane.

Crew of Trained Rescuers.

By Associated Press.

Pittsburgh, Pa., Aug. 26.—An explosion occurred here late today in the sample run mine of the Clearfield Bituminous Coal and Coke Company at Clymer, Pa., in Indiana county. The mine is one of the largest in that field, employing several hundred men. First reports did not indicate whether any miners were trapped.

Storm Had Passed.

Later the bureau of mines was advised that sixty miners had been entombed. An automobile rescue truck fully equipped and carrying

the storm had passed. Wind velocity also continued to decrease in most sections. The speed of the wind in New Orleans diminished from a peak of 45 miles an hour last night to 28 shortly after midnight. It began to increase however about an hour later and was soon blowing as high as thirty-five miles an hour. Weather forecasters were of the opinion that stiff winds would continue for several hours.

Sixty-Mile Gale Rages.

A sixty-mile gale was raging in Morgan City and five inches of rain had fallen there when communication with that town from New Orleans became impossible early last night. Several houses had been damaged, the roofs of some being lifted before the wires to Morgan City were crippled.

Meanwhile, reports from the mouth of the Mississippi river told of the barometer rising. Tides there and at other points along the coast were falling. Shipping, however, remained virtually at a standstill. Apprehension was felt among coast residents for the safety of numerous fishermen who left Biloxi yesterday for the Louisiana marshes.

More than a score of minor fires were reported here last night.

Railroads Hampered.

Lines of the Texas and Pacific, Missouri Pacific and Southern Pacific Railroads were still hampered today by high winds which made it unsafe to attempt to move trains across the Mississippi river aboard ferry boats. Five trains were delayed for the same reason last night.

A workman was fatally injured last night at Ship Island, Miss., when he was struck by a wire charged with electricity. No other serious injuries were reported.

Small Farm Houses.

Small farm houses, he said were unroofed and in some place torn from their foundations.

**TOTAL SEVENTY-ONE
ABSENTEE VOTES ARE
CAST IN ELECTION**

By Associated Press. A total of seventy-one absentee votes were cast at the county clerk's office in the coming election, it was announced today as the time for casting absentee votes closed. This is almost as many as were cast in the first primary, which showed a total of 113 votes.

Election observers predict that Navarro county will poll about 7,000 votes Saturday.

**NOTORIOUS GUNMAN MUST
STAND TRIAL IN ARKANSAS
BEFORE GOING OTHER STATES**

By Associated Press. Texarkana, Ark., Aug. 26.—Tennessee and Mississippi officials must wait until Kenne Wagner, notorious gunman, is tried for his life in Miller county before they will have an opportunity to exact toll for crimes committed in those states.

The notorious killer, charged with the slaying of Sam and Will Carper, and the wounding of Bob Carper, on a farm near Texarkana, was held for the action of the Miller county grand jury yesterday when arraigned for a preliminary hearing.

Governor Tom Terrall of Arkansas, in answer to the application for extradition to Green county, Mississippi, where Wagner is wanted on a charge of slaying a deputy sheriff, stated that the wishes of the Miller county authorities would be observed. Since Wagner has been held without bond by Miller county, Dexter

Bush, prosecuting attorney, states that he must stand trial for the slaying of the two Carper brothers.

Sheriff A. J. Turner of Green county, Miss., who attended the preliminary hearing with requisition papers, has returned to his home state to await the outcome of Wagner's trial in Miller county before referring his right of custody to the gunman.

Sheriff Joe Turner of Sullivan county, Penn., who also came to Texarkana, but without requisition papers, has returned to Tennessee. Wagner is wanted in Tennessee for the slaying of two officers.

Eliasville—Phillips Petroleum Company to enlarge carbon black plant.

Vernon—Construction started on \$200,000 new hotel Wilbarger.

"A Practical Demonstration to Navarro County Farmers, of Tractor Farming Equipment"

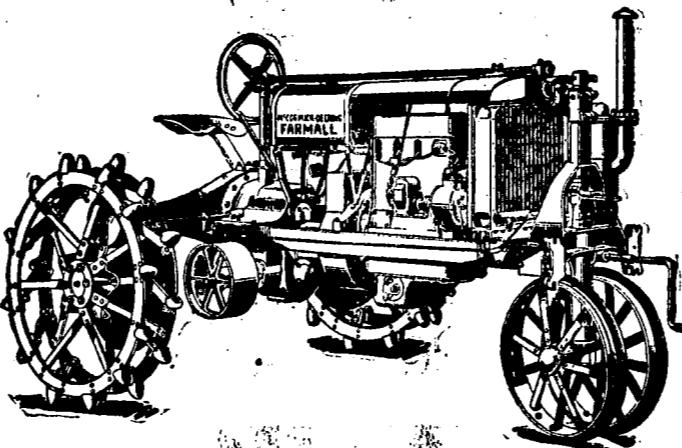

On Wednesday, September 1st

With the assistance of capable representatives of International Harvester Company (weather permitting) we will demonstrate the International "FARMALL" Tractor with its particular power farming equipment to the interested and wide awake farmers of Navarro County. With this comparatively inexpensive equipment can be operated a Double Middle Breaker, Bedding and Rebedding, Planting, Cultivating Cotton Four Rows at each round, Pulling Disk or Mould Board Double Plows and also used as a complete Mower with 7 foot blade. Come and bring your interested neighbor and wife. Give the DRANE COMPANY an opportunity to "show you" that right here in good old Navarro County power farming can be done economically with the "FARMALL" power farming equipment.

NOTE—In one section of this "Grand Old State" One Hundred and Twenty-three (123) successful farmers are users of "FARMALLS". Usually, and very unfortunately for this section, the feed item is more of a draw back than the cotton yield.

Let us help you solve that problem hereafter with
"FARMALLS"

TIME—9:00 a. m. to 5:00 p. m. Wednesday, Sept. 1st.
PLACE—4 1/2 miles West of Corsicana on Corbett Pike, at
Mrs. S. A. Redden Farm.

Here's What FARMALL Does

The gross cost of cultivating 168 acres with team is more than twice the cost of doing the same job with the Farmall. These figures, furnished by farmers, and not by a company representative, tell the story—

"Mule Farmer"

168 ACRES
Initial cost, 8 miles \$1268.40
Feed Bill, one year 1214.80
Harness, 8 miles 137.20
Plows, Planters, Cultivators 1008.60
Grand Total \$3629.00

One Farmall User

168 ACRES
Initial Cost Farm All, including Plows, Cultivators \$1395.00
Maintenance Cost 1 year, Gas and Lubrication, 375.00
Grand Total \$1752.00

The saving you will make on your feed bills alone will pay the cost of your FARMALL in fifteen months. Place your order now.

THREE OFFICIALS LOSE POSITIONS ON ACCOUNT OF MURDER

By Associated Press.
Canton, Ohio, Aug. 24.—The axe which yesterday cut down three of Canton's official heads has not yet been sheathed and Mayor S. M. Swarts may be expected to wield it still further within the next few days.

Last night the mayor dismissed Chief of Police S. A. Lengel. Yesterday afternoon he "fired" Price Jansen and John Burris, two of the members of the civil service commission.

The deposed chief has right of redress before the new civil service commission, comprised of George Melbourne and Charles Flory, appointed by the Mayor yesterday, and James Allardice, another Swarts appointee, who has previously voted to oust Lengel. Jansen and Burris at a hearing against the chief last spring voted for reinstatement. Members of the police force other than Lengel are understood to be in line for the permanent of charges at an early date.

The dismissals are either the outgrowth of or have been influenced by the investigation into the murder of Don R. Mellett, Canton publisher, and the inquiry into the alleged liquor conspiracy from which the murder plot is believed to have been the outgrowth.

Mellett Had Attacked Lengel.

Mellett editorials had vigorously attacked Lengel and had followed with attacks on Jansen and Burris when they failed to vote for the chief's removal. Lengel was suspended 30 days ago by Mayor Swarts when he believed the police inquiry into the Mellett murder mystery, then eight days old, had failed.

Among the charges preferred against Lengel last night was one that he "bungled" the murder in-

vestigation.

Lengel is expected to carry his fight to the commission and endeavor to show that members of the police department did not receive co-operation from the Mellett family at the time of the murder. Police department records show that the officers were not called until half an hour after the shooting occurred.

Other charges against Lengel are that he had been reelected in his duties, particularly in having compensated bootleg activities and in having maintained too intimate contact between the underworld and the police department.

Moody Forces and All Factions Endorse Pollard.

That there is no political issue involved in the race for Attorney General, but that the sole issue is qualifications, is evidenced by an endorsement of Claude Pollard by Moody and Ferguson supporters, and all other factions and organizations. Pollard was endorsed by Gov. Ferguson because of his superior qualifications, without solicitation, and in the face of the fact that no election did Pollard ever vote for him. Moody has made no choice, but leaves it to the people. Give your next governor an efficient and honest attorney general to counsel with. Moody has had more experience by far than Alfred.

Alfred had Gov. Ferguson appointed his brother as District Attorney the same day he resigned at Wichita Falls. Before the first primary, the Forum spoke very favorably of him. Since the landslide for Mr. Moody, Alfred claims he has always been for Moody, and that the Ferguson forces are supporting Pollard.

The Ferguson, Moody, and all forces are joining hands to give the state a real attorney general. This is evidenced by an endorsement by D. W. Wilcox, Georgetown, Chairman Moody Statewide Campaign Committee, and the following Navarro county forces: B. H. Jester, County Chairman; C. T. Bannister, Campaign Headquarters, C. R. Terry, Lee Jester, H. B. Davis, Wayne Howell, Judge Warren Heeks, and hundreds of others. That Pollard is the choice of all factions is demonstrated by the endorsement of 39 out of 41 Navarro county lawyers.

The only issue is experience and a known quantity versus inexperience and an unknown quantity. Pollard has practiced in all courts 27 years. Alfred has practiced since 1921, having acted as district attorney two and one half years of that time.

If you are in need of an attorney to represent you in litigation involving millions, which would you choose? Then give your state the benefit of your judgment. (Pol. Adv.)

BOMB EXPLODED BY MAN REFUSED MONEY ONE KNOWN DEAD

By Associated Press.

Pittsburgh, Pa., Aug. 24.—His demand for \$2,000 rejected, a man, dressed in working clothes, set off a bomb in the Farmers' Deposit and Savings Bank, a branch of the Farmers National Bank and occupying the same quarters.

The interior of the bank was so wrecked that firemen found it hard to get in. They reported that within the corridor they could see the body of a man with the head blown off.

Two hospitals reported that fifteen victims of the blast had been admitted to the institutions. A number were reported in critical condition.

To the Voters

of Navarro county. I take this method of getting my name before you, being in the run off for the office of County Treasurer. My opponent tells you I had this office one term, of which I did in 1911. I was elected and served 1912 and 1913. The salary was cut to where I only received about \$9. per month. There was 9 months of the term that I got nothing at all. I came out in debt, after paying \$75.00 to make the race and lost \$50. I had pawned on a home.

FRANK MITCHELL.

The young people of Barry community went picnicing Tuesday evening at the Big Bridge on Chambler creek. A large crowd attended and reported a very pleasant trip.

To the Friends of Mrs. M. A. Ferguson in Corsicana:

Let us be courageous in the pending campaign. We are of the opinion that the people of Texas are not against Mrs. M. A. Ferguson and for Dan Moody as the returns of the election seem to indicate. The election contest at Dallas reveals to us exactly what has happened to us throughout the State. We are of the opinion that Mrs. Ferguson's friends are in the majority among the real Democratic voters of this State, and there is no doubt but what she will carry this county by a good majority.

Let every man and woman who is friendly to our Governor and who are friends of open, visible government, go boldly forth and let us pile up for her a majority Saturday.

Mr. and Mrs. Floyd Cox and children have returned from an automobile trip through West Texas and Oklahoma.

Mr. and Mrs. W. N. Marshall went to Dallas Tuesday and drove back in a new Nash sedan.

Mr. and Mrs. Fred York and Mr. and Mrs. Alton Bradley left the first of the week for Wichita Falls where they will spend several days visiting.

By Associated Press.

New York, Aug. 24.—Rudolph Valentino wanted to die young and today the body of the 31-year-old "perfect lover" of the screen lay in an undertaker's parlor, magnet for a crowd that blocked traffic. Funeral plans are awaiting the arrival of Italy of his brother.

From his native Italy to Los Angeles, capitol of Hollywood, tributes flowed into the dead actor, who came to America practically penniless, got a job as a gardener, and last year earned and spent \$1,000,000.

John W. Considine, producer of his pictures, said in Los Angeles: "Valentino several times remarked to me 'I shall die young. I know it, and I shall not be sorry. I would hate to live to be an old man.'"

Would Erect Monument.

Italian admirers in Los Angeles have started a movement for funds to erect a monument to Valentino, who announced some time ago that she expected to be come his third wife, is prostrated.

Charles Eyston of Los Angeles, a mutual friend of Valentino and the Polish actress, says the wedding was set for as soon after January 1 as their motion picture work would permit.

Marian Benda, Follies girl, who was Valentino's companion in New York the evening before he went to Polyclinic Hospital for the double operation that preceded his death, said that Valentino had no intention of marrying.

Not Engaged to Poli?

"He was not engaged to marry Miss Negri," said Miss Benda. "You'll notice that all the statements have come from her. He never denied any of them because he was too fine. He did think a great deal of her."

"We had a discussion on marriage recently, and he told me that he wouldn't marry again until he was ready to give up his career. Then he would settle down to domestic life."

As for rumors that they had been to a "wild party" the night before Valentino went to the hospital, Miss Benda said:

"We went to Texas Guinan's and had a marvelous time dancing and when we were there a while Rudolph told me he wanted to get out. We left, and he took me home, and then left me."

Died of Septic Poisoning.

Valentino died of septic poisoning that entered his heart and lungs. Internal disorders which brought about his death began six weeks ago, his physicians explain ed.

The star's brother, Alberto Guglielmi, is on the way from Italy to give orders as to the disposal of the body, and his attorney and friend, Michael Romano, is coming from Chicago to take charge of the estate.

One estimate is that Valentino left an estate of \$750,000. Joseph M. Schenck, head of the United Artists' Film Corporation, said Valentino had spent nearly every cent by this bureau was as follows: with the aliases used in each instance: Fred Burke, arrested August 24, 1917, in New York City and sent to Blackwell's Island; John Hammond, arrested April 26, 1922, at New Orleans; Joseph Clark, arrested July 1, 1923, in Philadelphia; Frank Clark, arrested in Syracuse, N. Y., August 8, 1923; Frank Burke, arrested in Yonkers, N. Y., February 2, 1924; Joseph Holley, arrested July 19, 1924, at Schenectady, N. Y.; Angie Arata, arrested August 2, 1924, at Worcester, Mass.

Under date of August 20, 1926, at Colorado Springs, Chief Knight received a letter as follows:

"On August 15 this department arrested Angie Arata, alias The String Kid, alias Frank Gray, Frank Colton, Frank Coulton, Frank Craig, Frank Long, Andrew Anderson, H. A. Marr, John Barrington, T. Cole, etc., etc., a notorious pickpocket. According to your circular of August 2, 1925, this man is wanted by your department. Charges have been filed against this man and he is trying at this time to make bond. We will thank you to let us know immediately on receipt of this letter if you still want this man."

The letter was signed by Chief of Police H. D. Harper, and also enclosed the finger prints, which corresponded with those of Arata received from Houston. Photographs of the man showed that he had aged much since his Houston

By Associated Press.

New York, Aug. 25.—The Texas Corporation has been incorporated in Delaware with an authorized capital of \$25,000,000, consisting of \$25 par stock to function as a holding company to take over the stock or holdings of the Texas Company, one of the largest independent oil companies in the country and the people are friendly and courteous, but that they can't beat Texas for genuine hospitality. As State Press says, Mr. Clarkson states, "Come to Texas."

Mr. and Mrs. William Clarkson, Jr. and children returned to Little Switzerland and remained for several days and after enjoying that scenic resort left in a car for home, stopping in Charlotte, Columbia, S. C., Charleston, S. C., Savannah, Ga., and on down the coast and around to Texas.

Mr. Clarkson stated that he was very much pleased with the result of the state election both in the state and county. Mr. Clarkson did not state when he expected to return home.

Washington, Aug. 26.—Differences of opinion about government economy and other political topics were brought into sharp contrast today with publication of the views explained by the Democratic National Committee and by Chairman Madden of the House Appropriations Committee and representing Wood of Indiana, chairman of the Republican Congressional Campaign.

Ames L. Beatty, chairman, explained that the new corporation was organized to overcome the handicap of limited power that could be exercised under the laws of Texas, where the present company is incorporated, particularly with reference to holding stock of other corporations.

Deposits of stock will be accepted by the Chase National Bank until November 1. More than 50 percent of the stock must be deposited before the plan becomes effective.

Upon consummation of the exchange, the new corporation announces its intention to inaugurate dividends at the \$3 rate paid of the present stock.

TRANSIENT COTTON PICKERS ARE BEING DIRECTED TO SOUTH

LATENESS OF CROP IN THIS SECTION STRESSED BY CHAMBER

Due to the lateness of the cotton crop in Navarro county, the early transient pickers coming through Corsicana have been directed to other points by the Chamber of Commerce. It is expected, however, that when cotton opens in full swing that some outside farm labor will be needed in Navarro county.

The supply of cotton pickers for Texas and adjoining States is being handled more satisfactorily since the United States Department of Labor established a special farm labor division for Texas at the request of Texas Chambers of Commerce some two years ago. This Division with headquarters at Fort Worth, works hand in hand with the Chambers of Commerce through the cotton belt to place pickers whom and where they are needed.

C. W. Woodman, assistant director of the Fort Worth office, in a letter to the local Chamber Wednesday, said that the heaviest demand for pickers in the past few days had been from Henderson in Rusk county and that section south of and east and west of San Antonio. Gonzales county particularly was asking for families. Other points, such as Winters, Merrell, Childress, Olney and Taylor are putting in bids. The prevailing prices for cotton picking at these points, the letter explains, is \$1.00 with board and \$1.25 without board.

Picking has already started in several points in Navarro county and probably will be under way by September 10th. The Chamber of Commerce is urging that local labor remain for the picking season here. Mrs. Dorman is survived by two daughters, Mrs. Pansy Irwin of Dallas, and Mrs. Earle Pressley of Corsicana; four sisters, Mrs. E. C. Sears of Corsicana, Mrs. Ben Todd of Richland and Mrs. Nick Parrish of Emhouse; three brothers, H. N. Kelley of Hooker, Okla., W. R. Kelley of Dallas, and H. W. Kelley of Albemarle, North Carolina.

Funeral arrangements have not been announced at press hour other than that the funeral services are expected to occur Wednesday morning.

Mrs. Dorman was born in Navarro county, near Cryer Creek, and had resided in this country all during her life until a few months ago when she removed to Dallas. She was a member of the Methodist church at Black Hills, never having transferred her membership from her childhood home. She was beloved by a host of friends who knew and loved her in life and who extend hearty sympathy to her bereaved loved ones in their hour of sorrow.

COTTON BELT RY. OFFICIALS TO TELL CONSOLIDATION PLAN

Growers of Navarro county see in the leaf and boll worm the principal uncertain factor in the size of the cotton crop, according to returns on a condition questionnaire handled by the Chamber of Commerce. Opinions on crop conditions were received from growers in practically every part of the county.

Estimates on the probable ginnings of the 1926 crop for the county vary so greatly, due to the influence of local conditions on the growers' forecast, that it seemed impractical to arrive at an accurate forecast.

The opinion of one grower that "insects and weather conditions can change production much from here out" is shared by most of those giving reports to the Chamber of Commerce.

Practically everyone of the growers report worms active at this time with earlier damage done by the flea. Boll weevils and caterpillars are also present in some sections.

Virtually all the growers answering state that there has been a slight decrease in acreage due to larger acreage in feed and to weather conditions at the time of planting.

In answering the question of the type of land that is showing best, practically all of the growers agree that the mixed and thin land crops are looking better at this time than the heavy black land crops. In some sections of the county cotton is dying in spots before maturing into anything in the way of a crop. This is attributed largely to heavy rains early in the season.

Some of the farmers declare that cotton has improved through the past five days.

There is a considerable difference of opinion as to what effect rains would have at this time. Some of the farmers feel that a good rain would add decidedly to the productivity of the cotton and enhance the crop. Others believe that insects are such a decided factor that an increase in insect life which rains would bring would result in more harm than good.

More interest has been shown in poisoning against the leaf worm and to some extent against the boll worm in the last week than at any time during the season.

Henry Gentry, county agent, says that there are about twelve power machines in use at this time in the county. Six big dusters have been placed recently in the county directly through the Chamber of Commerce Agricultural Department. There has been some difficulty in getting sufficient supply of calcium arsenite, the poison most generally used, but by the middle of this week distributors report there will be an adequate supply to meet demands.

Growers who are using calcium arsenite report very satisfactory results in killing the leaf worm. A few growers who were wise enough to use the poison as a preventive before the worms showed up in numbers have saved their crop entirely from the ravages of this pest.

Max Wolens Returns From Eastern Markets

Max Wolens has returned home from New York City where he has been for several weeks attending the markets and making purchases for the fall and winter months for the firm of K. Wolens Department Store. En route home he spent several days with his sister and other relatives who live in Chicago.

GOSSIP OF OLD WORLD CAPITALS

BY ASSOCIATED PRESS

LONDON

Hon. Anthony Asquith Understudies for Films; Amazonian Queen.

PARIS

Premier Poincare Affects Plainness in Dress for Economy's Sake.

BERLIN

German Official Wants Many of "Verboten" Signs Be Relegated.

By Associated Press.

London, Aug. 21.—The Hon. Anthony Asquith, son of Lord Oxford and Asquith, has been playing part of the role of an Amazonian Queen in a British film. He drove the chariot in an exciting race scene in place of Miss Phyllis Neilson Terry, who otherwise played the queen. Miss Terry found that guiding galloping horses from a swaying chariot was beyond her strength and Anthony Asquith "underscued" in it, attired in her royal robes and a wig.

Recently young Asquith visited Hollywood with his sister, Princess Bibesco and made a study of American film production.

Princess Likes Large Hats.

Princess Mary is fond of large hats and she likes them in bright colors. She has recently been wearing a wide-brimmed picture hat in damson red, simply trimmed with velvet of the same color. This hat is usually combined with gray gowns, set off by a boutonniere the same color as the hat. Princess Ingrid, the 16-year-old daughter of the Swedish crown prince, also is fond of picture hats; generally wears pure white ones, and white frocks.

Nobody to Ring the Bells.

All the bell ringers in Chertsey were members of the bridal party at the wedding of Miss Lily Stevens and chimers from distant Parishes had to be summoned to Chertsey to ring the wedding bells. Miss Stevens' father, who gave the bride away, has been foreman of the Chertsey church bell ringers for years. The bride and her sister, who acted as bridesmaids, are both experienced ringers and the groom and best man are also members of the local bell ringers.

Guests Forced to Eat Supper.

Just as Little Tommy Tucker of nursery fame had to sing for his supper, so guests at one of America's most prominent hostesses parties have to earn the meal they eat before dancing.

After an elaborate dinner at one of the leading hotels, the hostess startled the guests by announcing there would be no music by famous artists but that everyone would have to sing, recite, dance or make up rhymes in the slack time before adjourning to the ball room.

The result was surprising and interesting. Men and women big in the society picture vied in making good and outshone many of the younger set. Talent was unearthing from the most unlikely personages and the idea was a great success.

He Loved His Roses.

The "Grand Old Man of Roses," as he was called, the late Rev. J. H. Pemberton of Haivering, won more than 1,000 awards at flower shows. On retiring from the church two years ago, he became a professional rose grower. His blooms were in demand all over the world. He was interested in roses from boyhood and when, after seeing a rose show at the Crystal Palace, he determined that he would some day grow better roses than those on show then. He eventually did and became president of the National Rose Society.

American Aid Appreciated.

In recognition of the generous support by Americans generally of the Cathedral restoration fund, the dean and chapter of the Liverpool Cathedral will present to President Coolidge the photograph of a copy of Magna Charta, which is in the cathedral library.

Bridal Bouquet Funeral Offering. Miss Winifred Andrews of Chelsea, laid her bridal bouquet of sweet peas on the coffin of Henry Freeman, whose funeral was held in the village church at Burges Hill at the very hour he and Miss Andrews were to have been married. The clergyman who was to have read the marriage service read the burial service of the young man.

Too Many Books and Graves.

There are too many books and graves in the world, says Prof. J. F. Thorpe, F. R. S., organic chemistry expert.

"Civilization appears to be confronted with two ever-growing problems—the increase in its cemeteries and in its libraries," the professor declared in his presidential address to the chemistry section of the British Association at Oxford. "The former, no doubt, will be solved by cremation. Is it too much to hope that a judicious exercise of this method may also be applied to our libraries?" Prof. Thorpe asked in the course of his address.

"When it is remembered," he added, "that there are some 23,000 scientific periodicals published throughout the world, the mind stands aghast at the prospects which will confront civilization even in so short a time as 100 years."

"The space occupied by our ever-increasing libraries must cause alarm to those who contemplate the possibilities of the future."

Table of LEATHER BOUND Poetry and Classics. Half Price City Book Store.

PARIS

Premier Poincare Affects Plainness in Dress for Economy's Sake.

BERLIN

German Official Wants Many of "Verboten" Signs Be Relegated.

By Associated Press.

Paris, Aug. 21.—Coming after the monogram and the equally monogrammed and adorned M. Caillaux, France's new finance minister and premier, Raymond Poincare, is an extremely simple dresser.

Practicing his own preachment of plainness and economy, M. Poincare is wearing the same old soft grey hat he wore when he left the premiership more than two years ago. Also he is working in an old grey suit that shows considerable need of pressing. He is repairing less frequently to the barbers for his hair and beard trimmings than when he occupied the more decorative post of president of the republic.

When M. Poincare was foreign minister the social duties attached to that office forced him to be more or less stylishly turned out for gala occasions. Even then, however, he never deserted the old-fashioned frock coat for the more elegant cutaway, or the plain black waistcoat in favor of the white vest with his evening clothes. It had to be an exceedingly important affair to make him discard his derby or soft hat in favor of a "topper."

German Tourists Numerous.

German tourists, turning the tables on the French who poured into the Rhine land when the mark was at a low rate, are now, thanks to their restored currency, thronging into the Savoy region, particularly in the higher resorts of the French Alps. So great is this invasion that at Chamonix the natives complain there is almost as much German as French spoken.

The German tourists are reported to be good spenders and to have a particular penchant for champagne.

The local population, in spite of the money the foreigners bring in, is beginning to be a bit restive because of what they regard as the comical and overexuberant ways of certain restaurant and hotel proprietors and waiters.

Rules for Strict Economy.

A circular to school teachers, issued by M. Herriot as minister of public instruction, suggests ways in which they should recommend economy in the national interest. No sacrifice is insignificant, the minister says. If made by everybody, the suggestions are: Fruit and vegetables should be pared as little as possible and ashes carefully sifted.

Everybody should avoid wasting a single crumb of bread.

Coffee should be taken weaker than formerly and less sugar used.

Preserved milk should be avoided as being an imported article.

Less gas should be burned and the electric light turned off when not actually required.

Great care should be taken in clothes and nobody should be afraid of being seen wearing shabby clothes.

Bits of paper should be saved and sold instead of being thrown away.

Autos should be used only when omnibuses and subways are not available.

Russians Were Friendly.

What struck Captain Girler most on his record non-stop straight line flight (Paris-Omsk) of 2,937 miles in 29 hours, was the welcome the Russians gave him. As neither he nor his companion, Lieut. Dorilly, speak Russian, they could say on landing was "Franzouski" (French). At once those who were nearest hurried through the town and quickly rounded up its six inhabitants able to speak French.

The aviators brought back some caviar from Moscow, probably the freshest caviar ever eaten in Paris, as it was newly made and traveled 1,625 miles in 14 hours and 35 minutes. "Yay," said the captain. "The caviar was dear. So was living in general. We had to pay no less than three hundred francs each for a bedroom in Moscow, where the simplest attachment of the embassy has to pay 15,000 francs a month rent.

"A trans-Atlantic flight is perfectly possible, and with existing planes. It is no longer anything but a question of fuel carrying and of getting off the ground at the start. This, in fact, is the delicate point in these long distance flights."

They Roll Their Own.

Twice as many hand-rolled cigarettes are smoked in France as machine made by the state factories, the totals for last year being 10 billion state made as against 22 billion self-made.

This is explained by some smokers as a reflection on the defective manner that the state turns out its cigarettes, but it also is greatly due to the economy a smoker finds in rolling his own cigarettes.

The commercialization of the tobacco trade in France which the Poincare government is introducing will no doubt try to change this state of affairs and bring France into line with other countries where the number of manufactured cigarettes sold is at least double that hand-made.

Notice is hereby given to all property owners and to all interested parties that at the first called session of the Thirty-ninth Legislature of the State of Texas, to be convened in the City of Austin, Texas, on the 13th day of September, A. D. 1926, there will be introduced a bill in respect to Road District No. 9 of Navarro county, Texas, and the substance of such proposed law is as follows:

An act to create Road District Number 9 in Navarro county, Texas; validating and approving all orders made by the Commissioners Court of said County in respect to the organization of said district; validating the authorization, issuance, and sale of certain road bonds thereof, and providing for their payment by the annual levy, assessment and collection of general ad valorem taxes on all taxable property in said road district; approving and validating all orders of the Commissioners Court of said county in respect of said road district, bonds and taxes, or certified copies thereof, and constituting such orders legal evidence, and declaring an emergency.

Dated this the 11th day of August, 1926.

WARREN HICKS,
County Judge.

To Property Owners And Interested Parties

Notice is hereby given to all property owners and to all interested parties that at the first called session of the Thirty-ninth Legislature of the State of Texas, to be convened in the City of Austin, Texas, on the 13th day of September, A. D. 1926, there will be introduced a bill in respect to Road District No. 7 of Navarro county, Texas, and the substance of such proposed law is as follows:

An act to create Road District Number 7 in Navarro county, Texas; validating and approving all orders made by the Commissioners Court of said County in respect to the organization of said district; validating the authorization, issuance, and sale of certain road bonds thereof, and providing for their payment by the annual levy, assessment and collection of general ad valorem taxes on all taxable property in said road district; approving and validating all orders of the Commissioners Court of said county in respect of said road district, bonds and taxes, or certified copies thereof, and constituting such orders legal evidence, and declaring an emergency.

Dated this the 11th day of August, 1926.

WARREN HICKS,
County Judge.

**GOV. FERGUSON'S
CLEMENCY GRANTS
REACH 2308 TOTAL**

Associated Press.
Austin, Texas, Aug. 25.—Since he has been chief executive of Texas, Governor Miriam A. Ferguson has issued 2308 clemency proclamations, records in the office of the Secretary of State show. Since April 6, exactly 593 clemency proclamations have been issued.

The Governor has issued 365 full pardons; 756 conditional pardons; 336 restorations of citizenship; 168 paroles; 54 furloughs and extensions of furloughs; commuted sentences of death; granted eight reprieves of death sentences; remitted 20 jail sentences and balance of jail sentences; remitted 10 fines; remitted 13 times and jail sentences; reduced six fines; reduced one fine and jail sentence; remitted seven bond forfeitures; revoked nine conditional pardons; revoked 31 paroles and furloughs; suspended service on two mandates of the Court of Criminal Appeals; restored three hunting privileges; reduced seventeen bond forfeitures and remitted one jail and bond forfeiture.

The record shows that despite the clemency granted the population at the Texas penitentiary remains about the same. When the Governor was inaugurated in January, 1925, there were about 3,500 prisoners, and the prison report of August 24, 1926, shows that there are 3,529 convicts in the walls and on the farms.

The Governor granted a parole Wednesday to Nick Martini, convicted in Archer county in February 1926, in two liquor cases.

**EXTREMELY LARGE
"DEVIL'S HORSE" IS
FOUND NEAR TRINITY**

Following is the official certification of H. E. Wassell for Representative of the 60th district of Texas:

Hillsboro, Texas, Aug. 23, 1926
Hon. Geo. W. Walton
Chairman Navarro Co. Dem. Ex. Committee.

A large type of devil's horse of the species which if killed the cows will go dry, and if he spits in your eye it will be on the blink for seeing, was captured by G. E. Martin Wednesday and brought to the office of the Daily Sun.

The specimen is the largest and strongest of the devil's horse family seen in this section, according to statements of those seeing it.

The specimen was found in the Trinity bottom, captured and put in restraint by confining in a large fruit jar.

The devil's horse has been given to the biological department of the high school for academic purposes. It is fully twice the size of full grown devil horses usually seen. He measures about six inches from head to the tip of his tail, being the vertebrae, and stands about three inches tall on four strong legs. Two long feeler legs and two tentacles from the proboscis extend out several inches more in front.

Commissioners' Court.
Commissioners' Court will meet as a board of equalization relative to the oil properties of Navarro county Friday, beginning at 10 o'clock Friday morning.

Sheriff's Office.
Angie Arata, alias Frank Long, Frank Mann and String Kid, wanted in Navarro county on a charge of robbery in connection with the robbery of C. E. Kretzer of Wortham on the Cotton Belt trail in Corsicana April 17, 1925, is at liberty in Colorado Springs, Colo., on an indictment for theft there. The bond is in the sum of \$2,500. Officers stated that he could not be brought back to Corsicana to face the indictment here until his case had been disposed of there and that local officers would be notified as soon as he had been tried there.

Prof. Thomas, negro school teacher of the Chatfield community, has been arrested in Mexia and was lodged in the Navarro county jail Wednesday by Deputy Sheriff Pevhouse on a charge of statutory rape, alleged to have been committed against a thirteen year old negro girl several months ago. The girl was a pupil at the school conducted by the accused negro at Chatfield, it was stated.

Warranty Deeds.
E. E. Nettles et ux to Keren Cotton Oil Company, 20 acres Jesse Ammons survey, \$6,600 and other considerations.

Murrell F. Mosshart, et ux to Ferrell C. Mosshart, lot 3, block 624, and lots 1, 2, 3, 4 and 5, block 122, Corsicana \$600.

Royalty Deeds.
Bryon Cheney to D. F. Boyles, 1-32 interest in 40 acres Thomas R. Donaghe survey, \$10 and other considerations.

John C. Calhoun to D. F. Boyles 1-80 interest in 65 acres of the Caswell Rushing survey, \$10 and other considerations.

John C. Calhoun to D. F. Boyles 1-80 interest in 50 acres Caswell Rushing survey, \$10 and other considerations.

Mineral Deeds.
T. J. Bon et ux to L. N. Cerf, 1-16 interest in 10 acres Thomas Prati survey, \$500.

John C. Calhoun to D. F. Boyles 1-256 interest in 43.8 acres H. S. Shumpton survey, \$10 and other considerations.

**LUTHER A. JOHNSON
DEMO NOMINEE FOR
SIXTH DISTRICT**

The following is the official certification of Hon. Luther A. Johnson as the Democratic nominee for re-election as Congressman from the Sixth district:

I, George W. Walton, chairman of the Executive Committee of the Democratic party or the Sixth Congressional District of Texas, hereby declare that at the primary election held for the purpose of nominating Democratic candidates for State, district, county and precinct offices to be voted for in the general election in November 1926, said primary election having been held in July 24, 1926, the following votes were cast for the nomination for the office of Congressman for the Sixth Congressional District of Texas.

For Luther A. Johnson there were cast in Navarro county 8,554 votes, in Milam county, 6,741 votes; in Freestone county, 3,610 votes; in Brazos county, 3,108 votes; in Limestone county, 6,352 votes; in Robertson county, 3,004 votes; in Madison county, 120 votes; in Hill county, 7,750 votes; in Leon county, 2,580 votes. And in all of the nine counties of the district, 44,119 votes.

Said Luther A. Johnson having received a majority of all the votes cast in the district in said primary for said nomination therefore hereby declare him the Democratic nominee therefor, and hereby issue this my certificate of such nomination.

GEO. W. WALTON.
Chairman Executive Committee of the Democratic Party of the Sixth Congressional District of Texas.

Following is the official certification of H. E. Wassell for Representative of the 60th district of Texas:

Hillsboro, Texas, Aug. 23, 1926
Hon. Geo. W. Walton
Chairman Navarro Co. Dem. Ex. Committee.

Very truly yours,
L. P. LEVERETT,
Chairman 60th Representative District.

HOW TO LIVE LONG AND PROSPER

Comment on the Uniform International Sunday School Lesson for
August 29, 1926.
Read Exodus 20.

WM. SOUTHERN, JR.

**THE TEN COMMANDMENTS:
DUTIES TO MAN.**

Scripture Lesson—Exodus 20: 12.

12 Honor thy father and thy mother: that thy days may be long upon the land which the Lord thy God giveth thee.

13 Thou shalt not kill.

14 Thou shalt not commit adultery.

15 Thou shalt not steal.

16 Thou shalt not bear false witness against thy neighbor.

17 Thou shalt not covet thy neighbor's house, thou shalt not covet thy neighbor's wife, nor his manservant, nor his maid-servant, nor his ox, nor his ass, nor any thing that is thy neighbor's.

18 And all the people saw the thunders and the lightnings, and the noise of the trumpet, and the mountain smoking: and when the people saw it, they removed, and stood afar off.

19 And they said unto Moses, Speak thou with us, and we will hear; but let not God speak with us, lest we die.

20 And Moses said unto the people, Fear not; for God is come to prove you, and that his fear may be before your faces, that ye sin not.

21 And the people stood afar off, and Moses drew near unto the thick darkness where God was.

Golden Text—Thou shalt love thy neighbor as thyself.—Lev. 19:18.

In the great library at Berlin, carefully preserved, are sheets of papyrus upon which are Egyptian characters. Scholars have translated the record and tell us that the pieces are parts of the Egyptian Book of the Dead and date back as far as 500 B. C.

In this record is given a long list of the replies the spirit of the dead gives to Osiris when brought up for judgment. In this list are these:

I have not lied.

I have not murdered.

I have not committed adultery.

I have not stolen.

I have not been a tale-bearer.

I have not cursed God.

It was a repetition of the Egyptian code of laws and if the spirit could honestly answer he was entitled to the reward which should come to the honored dead.

Many of us have, perhaps considered the ten commandments as mere moral precepts. We easily agree with the man who says you can not legislate a man to goodness. Perhaps we go with those who say that the ten commandments are out of date and have no place in our present-day civilization.

Perhaps also to some of our young people the fifth commandment will seem a very surprising thing. Parents in this day and age are not in step. Some of the moth-

ers even wear long hair and the fashions think that too much spending money is not good for the youth.

A short time ago I was startled by a statement that prohibition was not a moral issue, as such. After studying over this suggestion I concluded that the statement was in part correct. As a part of the law of the land prohibition ceases to be exclusively moral issues and becomes a law for the benefit and the welfare of the people, just as are all other good laws.

Laws are not made to make people good but to make it possible for people, states and nations to live together in peace, harmony, prosperity and mutual protection.

Apply this view to the ten commandments and they become exactly such laws. They are not laws for any one class, they are not laws to restrain those who are moral and who believe in God, if all we such we would not need any laws.

The ten commandments represent necessary change as we come from savagery to civilization. An individual give up a part of his personal liberty for the benefit of the family, the family gives up a part of its personal liberty for the benefit of the nation.

Basic laws were absolutely necessary to make the nation of free and liberty-loving, self governing people out of the Hebrews.

The ten commandments form the constitution upon which all other laws are based. In them are enunciated the vital principles which make possible Christian communities.

Do not forget that these basic laws were inspired of God, that Moses was selected by God, thrown into the only possible situation which could qualify him for the great work that he had to do. Do not forget that without God and His inspiration no progress could be made in the world, the United States could not have been, the Declaration of Independence would never have been written, for God raised up the patriots who made this nation and gave them the wisdom and courage to do His work.

A generation ago every child in this country could repeat the ten commandments in order and tell the story of Moses. I do not know if this is true today, if it is not it should be, for no man or woman can be a good citizen who is not familiar with this great constitution which embodies the faith of all peoples everywhere.—The Republic Syndicate.

MOTOR RULES AND THE
FUTURE.

That mellifluous word: "Prosperity" is sent ringing through the country by the federal reserve board. Industrial production in the first six months of 1926 surpassed all previous records for a like period, and the production was sold. Demands for products came from both urban and rural districts, and exports were high. Crop prospects are good, and general business is expected to continue as good during the next six months as it has been in the past.

Truly we are a fortunate people. And one of the great reasons why we are is because we have kept consistently to a minimum race, religious and sectional antagonisms. Other populated areas of the world are divided by all those things. Here everybody has the opportunity to achieve whatever his abilities enable him to do. It ever that condition ceases, we may certainly look forward to a great decrease in prosperity and well-being.

WHY USE LIME?

In a recent issue of the Progressive Farmer the use of lime is discussed by Eugene Butler, as follows:

"Lime has other functions besides that of serving as a plant food. Perhaps its most beneficial function is that it makes acid soil sweet. As organic matter decays in a soil, it sets free certain acids that combine with the lime in the soil. After these acids are acted upon by lime, they do not harm, but if the lime is not present in the soil to combine with the acids, the soil becomes sour and for many plants does not furnish a suitable home in which to live and grow. Not only does lime correct the acidity of soils but it acts on insoluble plant foods, such as potash and phosphoric acid. In such a way as to make them available to crops. Plants throw off certain poisons or toxins, and lime is useful in overcoming the effects that these poisons have on the crops that follow.

The state and county political campaigns will soon be over and then we can devote all of our time in the interest of securing a system of hard surfaced highways for Navarro county.

Some said there were revolt and mutiny in Russia, and others that "peace and order reign throughout the country." One or the other of these reports is sensational.

Intuition is that mysterious psychic power which moves a woman to arise at 3 a. m. and discover that her husband has failed to shut an ice box door.

After traveling 25 years, a commercial salesman died recently in Texas, leaving an estate variously estimated at from 700 to 800 Pullman towels.

Mr. Pyle, the pro football and tennis promoter, is now faced with a serious publicity problem. He can't have Suzanne deliver ice.

"Another biological effect of lime is found in its connection with the prevalence of certain plant diseases. The small, low order of plants living in the soil, known as fungi cause many diseases of crops. Certain of these disease producing plants thrive in a soil filled with lime, but most of them prefer a sour soil. Scar of potato is one fungous disease that prefers a sweet soil, and for this reason, lime should not be added to potato direct. On the other hand, clubroot of cabbage prefers

a sour soil. Rust in cotton is also more prevalent in damp, sour soils.

"Lime also has a physical effect on soils. Clay soils, for instance, are made up of very fine particles that are so close together that the soil is tight and does not drain well. Furthermore, such soils are stiff and hard to handle. By the addition of lime, these soils are made less sticky, better drained, and more easily cultivated. This is due to the action of the lime in causing the small soil particles to stick together, thus making little flakes or larger particles. When used on sandy soil in the form of limestone, small amounts of lime tend to act as cement, and by holding the soil particles together enable the soil to hold water better. However, one should be careful about using large amounts of lime on deep sands—the leaky kind—on account of the loss of nitrogen."

MOTOR RULES AND THE
FUTURE.

The widespread use of the motor car is compelling lawmakers to give considerable attention to the special problems it presents. Judging from the efforts now being made to promote safety and sanity in driving it is altogether probable that within the next few years the world will see many radical extensions in public control over motoring.

New York already is considering banishing private cars from the more congested business areas. Even now limitation of parking areas in the downtown section of all big cities foreshadows the day when all cities, in lieu of some other way of meeting the problem, may have to consider limitation of traffic in certain localities.

Engineers and architects specializing in business construction already must keep in mind the special problems involved in the constantly increasing use of motor cars. Every street which loses its fine shade trees to provide wider driving space and more generous parking area is a reminder that the motor car is making more and more insistent demands on our ingenuity. In fact, it is altogether possible that the cities of the future will be driven by the automobile to radical changes in street widths, highway approaches and general plan which we of today can only dimly foresee.

Everybody in Corsicana and Navarro county is invited to be present for the Sun's election party Saturday night. The returns from both state and county will be flashed on the screen and megaphoned to the crowd. Eleventh street between Collin and Sixth avenue will be roped off and chairs will be placed in the street for the convenience of the people. State returns will come direct to the Sun office over the special leased wire of the Texas Election Bureau, of which the Sun is a charter member, and the county returns will be phoned to the Sun office by the officials of the various voting boxes over the county. The ticket is short and we should have a fair idea of how all races are going at an early hour Saturday night.

The state and county political campaigns will soon be over and then we can devote all of our time in the interest of securing a system of hard surfaced highways for Navarro county.

HOT CHECK ARTIST
STICKS KERENS MAN
FOR GROCERY BILL

Special to the Sun.

Kerens, Texas, Aug. 26.—A hot check artist obtained a grocery bill of about \$10 from a local grocer Tuesday. The merchant, when ap-

proached for cash on the check did not have the cash to spare. The hot check operator said he needed the groceries then, and stated that he would return the following morning to get his balance of cash due. He never did return. The draft was drawn on a fictitious oil company, and payable through a Waco bank. The Waco bank stated that about twenty of these checks had come to them most of the checks being for \$50. The bank is making efforts to catch the check operator.

Meal! Meal!
Meal!

If you want good meal bring in your corn and let me grind it for you.

I have a new Williams Burr Mill ready to go. This mill will make the same kind of meal that the old water mill used to make.

If you have yellow corn we will exchange white corn with you.

We are now ready.

GOV. FERGUSON
ISSUES STATEMENT
ON KU KLUX KLAN
UNMASKED YOUTHS
ROB IRVING BANK
WEDNESDAY MORNING

By Associated Press.

Austin, Texas, Aug. 25.—Governor Miriam A. Ferguson issued another statement today scoring the Ku Klux Klan and declaring the worst Attorney General Dan Moody could say about "irresponsible government" is that it could never be as bad as invisible government.

The Governor said she is battling for the liberty of every sect or order in this state to "have their own religion and their own views so long as they are in keeping with the constitutional rights and views of other people."

"Mr. Dan Moody says that the Klan is not an issue in this campaign and the Ku Klux question is settled. And he says that I am trying to revive the issue of two years ago."

"This is another attempt to dodge the issue and to deceive and divide our friends. No further back than June 1st, of this year, yea, less than 90 days ago, the Rev. W. C. Wright, a prominent member of the Baptist church at Waco, Texas, and a prominent Klansman printed a book called, "The Religious and Patriotic Ideals of the Ku Klux Klan," on the back of which is mounted a Klansman in full robe and mask waving a fiery torch before a flaming red cross. Rev. Wright says this is a statement from the inside and not the outside, and that reliable information must come from known Klansmen like himself, or approved Klan literature. I am informed that Mr. Wright's publication has received the endorsement of the Waco Klan.

"Now let's see what he says the Klan is doing. On page 40 of this official publication he says: 'Every principle of the Klan symbolized by the Stars and Stripes is a political or patriotic ideal. Every problem of the Klan not included in its religious ideals is a political issue. Therefore, the Klan is, and must ever be interested in politics.'

"Therefore, with this solemn declaration the people will readily understand why the grand wizard, Hiram Evans, as charged by me two weeks ago and not now denied, gave the order in Waco, on November 21, that Dan was the Man. I also charge, and it has not been denied, that the Grand Wizard, Evans, removed the grand dragon of Texas because he did not support Moody and appointed Bloodworth as the grand dragon of the Ku Klux Klan, who also has been active during the campaign."

GLASSES For Reading

Reading for any length of time results in eyestrain, but the subject so interests us that the burden placed upon the eyes goes unnoticed.

To keep your vision at full clarity we suggest supplying yourself with glasses to be used for reading or any other close work.

Let us examine your eyes. We will tell you their true condition.

COUNTY NEWS

RICHLAND NEWS.

Special to the Sun.

Richland, Texas, Aug. 26.—Commissioner Rube Milligan has a new 10-ton tractor which he has put in use repairing the road through Richland creek bottom.

The oil business here is still on the boom. Richland is a lively little town.

The Woman's Missionary Union met at their regular hour 3 o'clock Monday. Several good talks were made on helping the poor and needy. It was decided for the members to meet on Friday next at Mrs. Lee Club's for the purpose of getting together materials for making and quilting quits for the Orphans' Home at Dallas. They also decided to quilt for the neighbors at \$1 per spool, sending the cash to the orphans' home.

Mrs. Garland Land, son, Hugh, carried her Sunday school class for an outing Sunday afternoon to the bluff. After several songs and readings, refreshments of delicious grape juice and cake were served.

Mrs. Clint Bounds also entertained her class at the hospitable home of Mrs. Garland. All kinds of games were played, including the "snipe hunt" which was greatly enjoyed, after which lemonade and delicious cake was served. All declared they had a wonderfully good time.

Mesdames Bill Plunkard and Tom Rive visited their mother in Dawson Sunday.

Miss Hazel Willis left Friday for Haskell for a few days' visit.

Joe Hammond is in Dallas, Waco and Fort Worth, purchasing goods this week.

Mr. and Mrs. C. A. Settle have moved to Denison.

Mr. and Mrs. Thos. Gregory of Coolidge visited relatives in Richland last Sunday.

Mr. and Mrs. Walton Pierce have returned from a visit in Abilene.

Miss Hattie Mae Wills is visiting in Navasota this week.

Misses Jette Edgar and Allie Mae White were shopping in Corsicana Monday last.

Mrs. Charlie Howard of Corsicana is visiting Mrs. W. H. Hartfield this week.

Mr. and Mrs. Roy Adams have returned home after spending the week end in Houston.

Mr. and Mrs. R. C. Holland, accompanied by Mrs. Elmer McGee and Miss Georgia Moore, have returned from a visit in Beaumont, Shreveport and other points on the Texas-Louisiana line last week.

Mrs. Lister and two daughters, Misses Myrtle and Ruth, of Paris, Texas, are visiting their sister and aunt, Mrs. W. H. Hartfield.

Mr. and Mrs. J. Elkins have returned from Hebronville, after a long absence.

The many friends of Mrs. H. C. England are glad to see her on the streets again, after undergoing an operation for appendicitis, in the Corsicana hospital.

Mrs. N. R. Nichols and little Miss Alma Brown are spending the week in Greenville.

Corbin Knight is suffering from a severely burned face and both hands from a loaded cigarette.

EMHOUSE NEWS.

Special to the Sun.

Emhouse, Texas, Aug. 26.—Cotton poisoning is the order of the day with a good many of the farmers in this community. Paris green is the poison that is being applied to kill the leaf worms.

We are indeed sorry to report R. A. Johnson very low this week.

Mr. and Mrs. Dave Allen are the proud parents of a fine baby girl, who came to make her home with them Saturday night.

Messrs. Roy and Robert Bris-
tow returned Monday afternoon from a visit to their grandfather and other relatives at Athens.

Ach Darden is visiting his daughter, Mrs. Pritchett, below Corsicana this week.

Mrs. G. G. Owen had as her guests Tuesday Mrs. Ras. Maggard of Bardwell and Mrs. Jewel Boren and children of Fort Worth.

Mr. and Mrs. O. L. Elkins and children were the guests Sunday of Mr. and Mrs. Hartsell Elkins of Corsicana.

Mr. and Mrs. McManus and son, Bryant, were in Dallas Sunday, visiting their two sons, Roy and Cecil.

Mr. and Mrs. Sam Green of Bardwell were Emhouse visitors Tuesday.

C. W. Collins is on the sick list this week but is reported better at this writing.

Mr. and Mrs. L. H. Elrod and children of Godley were visiting relatives and friends here Saturday and Sunday.

Mrs. Harry Richards of Corsicana is spending a few days with her friends, Mr. and Mrs. A. C. Richards.

Mrs. Bill Moore and little son, Glen Riley, are visiting her parents, Mr. and Mrs. R. M. Riley, this week.

T. E. Worsham of Dallas was here Saturday and Sunday, visiting friends.

Mrs. A. J. McClellan of Waco was here to visit her husband last week end.

Mr. and Mrs. M. Montgomery and daughter, Lennie Kate, visited relatives in Blooming Grove Sunday.

Mr. and Mrs. Lee Hearn of Corsicana have moved back to Emhouse and will make their home for the present with Mrs. Hearn's parents.

News was received Tuesday of the death Monday night of Mrs. Alice Dorman of Dallas, sister of Mrs. Addie Hook and Mrs. Nick Parrish of this place. These sisters were at her bedside when death came. Mrs. Dorman had undergone a very serious operation. We extend sympathy to those bereaved.

The Death Angel visited the home of Mr. and Mrs. Frank Vyers last Wednesday and took from their midst their daughter Mag-

gie Pearl, age 16 years. She had only been ill a few days. Funeral services were held Thursday with burial in the Pattison cemetery. We join the friends of Mr. and Mrs. Vyers in extending them our sympathy in their hour of sorrow.

The faculty for the next term of school has been announced and is for opening set at Sept. 13. We are looking forward to a good term of school next year.

BLOOMING GROVE NEWS.
Special to the Sun.

Blooming Grove, Texas, Aug. 26.—J. F. Yarber is in Frankford, Ind. and will tour other states on his return.

Miss Lucile Walker has returned from Dallas where she has been spending the summer.

Mrs. H. O. Timmins has returned from Weatherford.

Miss Adelaide Robinson is spending the week in Corsicana with her sister, Mrs. Beverly Caldwell.

T. M. George has returned from a visit to Slaton.

Mr. and Mrs. Lee Meador and children have returned from a car trip to Austin and San Antonio.

Mesdames E. B. Robinson, Ella Blair, Misses Beatrice Robinson, Patt Harris and Elmer Robinson have returned from Glen Rose.

Miss Edith George is visiting in Grand Prairie and other cities.

Miss Edna Reid has returned from Abilene.

Justin McSpadden has returned from Slaton.

Oscur Ingram of Dallas was here Sunday.

Misses Martha and Amy Wagstaff have returned from Dallas and will spend the balance of their vacation here.

Mr. and Mrs. R. D. Richards, Dallas, were here for the week-end. They were guests of Mrs. Maggie Richards.

Mr. and Mrs. Pat Clark of Lot 1 have returned home after a visit to Mrs. Addie Sears.

S. W. Henderson and family are spending the later part of their vacation in the coast country.

Miss Gertrude Yarbor has returned from Denton.

Mr. and Mrs. L. L. Griffin and children are in Port Arthur.

Miss Edna Bell of Corsicana spent the week-end with her sister, Mrs. J. H. Cole.

Miss Iver Lowery, Dallas, has returned home after a visit to Dr. and Mrs. E. B. Lowery.

Mr. and Mrs. Frank Elder and daughter Catherine are house guests of Mr. and Mrs. P. H. Woodard.

Mesdames P. H. Woodard, Frank Elder, Mattie Ramsey, S. M. Woodard, Misses Catherine Elder and Martha Woodard were in Italy Monday.

Misses Frances Huffstutler and Lucile Walker will honor Miss Louise McCormick with a reception and shower, Thursday afternoon at the home of W. E. Huffstutler. The honoree is the bride-elect of Walter Ramsey of Shreveport. The wedding will be in the near future.

FROST NEWS.
Special to the Sun.

Frost, Texas, Aug. 26.—Mr. Miller Shaw of Mangum, Okla. and wife and daughter Miss Evelyn of Dallas are visiting relatives here this week.

Little Miss Alice Clyde Lattimore is the guest of her cousin, little Miss Josephine Tullos of Corsicana.

Mr. Roy Neese of Barry visited his parents Sunday.

Ford
Wire Wheels

The Ford Motor Company is offering their latest development the new ELECTRICALLY WELDED WIRE WHEEL with drop center rim as optional equipment for an added cost of \$30.00.

This is a one piece welded wire wheel that has the strength and durability of the heavier type wheel while actually weighing 36 pounds less for a set of five wheels, than a set of four wood and metal wheels and an extra rim. This reduced weight adds greatly to the roadability of a car, reduces the unsprung weight and saves gasoline.

The New Ford WIRE WHEELS in attractive colors harmonize with the New PYROXYLIN finish of the Ford CLOSED CARS making a distinctive turn out not elsewhere obtainable in the light car field.

"Ben" Said to "Bill" as They Talked About the Home Town

"Bill, did you ever sit out on the porch, after the folks had gone to bed, and just think it through for an hour or so, about what a great change has come over Corsicana during the past year or so?"

"Since you mentioned it, I've done just that, and you're right, there's been some wonderful changes come over Corsicana."

"Go back to about the time when Tenth Street was a mud hole and other things that have been improved were in the fix they were in."

"What has done it?"

"There you are. You are getting to what I want to talk about. It's the 'Corsicana Spirit.' There isn't a thing in Texas that equals the Corsicana Spirit--the ruling dynamo that really guides folks here."

"I was just taking a walk today and thought as I walked, that the fellows who have been hollering a fifty-thousand town here in five years are not going to miss it, are they? It's really in sight. The improvements point to it from any direction you look. The indications all are pointing to a city of forty to fifty thousand population in a few years."

"Now, 'Bill' here is what I started out to say. The current is all Corsicana's way now, and we are going fine. But did you know that we can go better and faster, if we'd just row a little, too?" We folks who live in Corsicana are fortunate. And the thought that I want to get to you is if we just start rowing—and row together, we can go right along even better than we are now going.

"The merchants and business men of Corsicana who are running this double page advertisement through the summer time. It is not making them money or speak of from a visible standpoint, right now. But what they are doing, they are showing to their friends and customers that right on through the summer time they don't want to lose the friendship of their customers just because it is hot and business is not as good as it is in the winter time. I'm strong for the fellers who keep on going on—don't give up when it gets too hot or too cold. Its just kinda like keeping up acquaintances with your friends, if you didn't see them once in a while, you'd forget them. So it is with advertising. The only way a fellow knows that a merchant or business man appreciates us buying their goods or using their products, is for them to do a little extra advertising and tells us, right out in the summer time—even if it is hot. I like it, myself—I like to be shown that my business is appreciated.

"Ben," you are right. Corsicana is growing and we should appreciate our merchants who are not afraid to blaze on through even while the hot sun shines."

Special Notice To Coffee Users

The first cost of your coffee does not determine its value. The question is, how many cups will a pound of coffee produce—Coffee ranges from 23 to 50 cups to the pound, family use, if ground fine, for urn, the best coffees will produce 60 cups to the pound. Adulterated coffees are not cheap at any price, the lower the price, the less cups a pound will produce, to say nothing of the difference in the flavor. For example—a coffee that retails for 40c will produce about 25 cups to the pound, whereas a coffee that retails for 60c will produce 50 cups per pound. Comparing the 40c coffee with the 60c coffee, you save 20c per pound by using the high grade coffee as it takes 2 pounds of cheap coffee to produce as much liquid as 1 pound of high grade coffee.

There is no better coffee at any price than "Royall's King of the Cup" and none that will produce more cups per pound.

Yours for better coffee,

The Cream of This Ad Is In the Center, Look for It.

Pangburn's Ragtime Chocolates are rapidly becoming nationally known. The reason for this is not so much the newspaper and magazine advertising as it is the superior quality of the ingredients that enter into them, and the care used in their manufacture. This causes a word of mouth advertisement that is the best kind and accounts largely for their increasing popularity.

BOY SCOUT TROOP ORGANIZED NAVARRO AND CABIN ERECTED

WOMAN SAW NEED FOR ACTION FIRST AND STARTED TROOP ON WAY

Some four or five weeks ago a lady in the person of Mrs. R. D. Owens suggested to the boys of Navarro, Texas, that they organize into a gang of Boy Scouts. Mrs. Owen saw the need of such an organization in her community and proceeded to take steps to have them officially registered with the National Office and when informed that she could not hold an office in the troop, she immediately found a man interested in boys who would take charge as Scoutmaster and she is known as the Troop "Mother." And a fine one we will say for the boys swear by her to the letter.

The troop is chartered with a membership of eleven boys, and without any training these boys under the direction of the Scoutmaster Mr. Joe Clark, who is with the Simms Oil Co., and Mrs. Owens secured permission from a land owner and started work on a log cabin which is a monument to better boyhood in that vicinity. The logs were all cut and hauled by the boys to a place deep in the woods and well located for such a cabin, a winding trail over ravines and through the brush leads to this spot that will be the center of many boy activities in the year to come.

Every member of the troop has passed the Tenderfoot test and well on the way to Second Class with only one manual to study from and a few leaflets passed out by the Scout office. A treasurer has been named and the boys have been busy collecting and selling junk to earn money to buy each boy a uniform. Of course this is being handled very carefully by the Scoutmaster and the interested citizens and they are doing everything possible to tie the boys up with the movement and making them feel that it is their very own.

Other troops are progressing very rapidly in the county in their scout work and the Corsicana troops are beginning to resume activities after the hot summer.

Plans are being made to organize several troops in Navarro county in the near future.

RETURNS RUNOFF PRIMARY TO BE GIVEN BY SUN

As has been the custom for many years the Corsicana Daily Sun and Semi Weekly Morning Light will give full reports on State and county election returns Saturday night, August 28, a few minutes after the polls close at 7 o'clock. The ticket is short and full returns should come in soon after the close of voting.

All election officials have been instructed by County Chairman George W. Walton to phone the results of the voting at their boxes to the Corsicana Daily Sun just as early as possible, in order that the figures may be tabulated and the result known. He will make his headquarters at the Sun Office election night. Just call Nos. 163, 877 or 1460, or call for Sun Office and the telephone operator will connect you with one of the phones.

The returns will be read to the crowds, posted on the doors of the Sun Office and thrown on the screen across the street from the Sun, as has been the custom in the past. The general public is invited to be guests of the Daily Sun and Semi-Weekly Morning Light on election night.

NOTED VIRGINIA HOMES

By Associated Press. No home in Virginia has ever attained the national and international recognition that Mount Vernon, the beautiful country estate of George Washington in Fairfax county has. It is here that the remains of the first president of the United States rest and it was at Mount Vernon that Washington lived.

Not far from the national capital, Mount Vernon stands upon the banks of the Potomac River, surrounded by the outer houses, servant's quarters, kitchen, smokehouse and spinning house. The main building, a wooden structure, looks down upon the river.

Surrounding the house is the garden in which during the time of Washington many of his guests planted shrubs or trees. Among these are trees planted by Washington and Lafayette.

Furniture Restored.

The three story house is entered from the east front through a long pillared portico, paved with tiles which Washington imported. Many pieces of furniture used by the Washingtons have been brought back and placed in the home which now is kept by the Mount Vernon association. All the furnishings and decorations are of the period.

The four principal rooms on the first floor are just off the panelled hall. On the same floor are the library and the banquet hall. Twelve bedrooms are on the second and third floors.

Mount Vernon was built about a 5,000 acre tract granted Colonel John Washington and Nicholas Spencer in 1644. Lawrence Washington inherited his great-grandfather's half of the estate and upon this he built Mount Vernon, naming the mansion after the British admiral under whom he served. George Washington, a half-brother, inherited the mansion.

David's Chapel Have Revival Meeting

The revival meeting at David's Chapel will open next Sunday, August 29th at 11 a. m. The pastor will be assisted by Dr. John M. Marcus, presiding elder of the Corsicana district, doing the preaching, and Mr. L. L. Williams of Corsicana will be in charge of the singing.

Arrangements are being made for open air services. We extend a most cordial invitation to each and every individual of the David Chapel community to attend these services. This is your opportunity for making conditions better, socially, morally and religiously, the building up of church interest and advancing the work of righteousness.

Dr. John M. Marcus is a wonderful preacher of great ability, and a splendid revivalist; he is recognized throughout our church as one of our greatest leaders and preachers. He is truly a great man and has but few equals when it comes to real gospel preaching. Reader if you want to hear the best, something that is worth while, something that will stay with you and do you good, attend these revival services.

Mr. L. L. Williams needs no introduction, he is a splendid singer of great ability, and sings the gospel with much power and demonstration, a good man; to know him is to love him. Services will continue throughout the week, opening each evening at "early candle light." Tell the folks about the meeting, invite your neighbors, come and you will be benefited. Remember the opening service, next Sunday at 11 o'clock.

George G. Smith, Pastor.

EASTERN STAR TO HOLD ANNUAL PICNIC OLD WATER WORKS

ARRANGEMENTS COMPLETE FOR GOOD TIME BY ALL PARTICIPANTS

Arrangements for the annual basket picnic for the Eastern Star at the old waterworks on Tuesday evening, Aug. 31, are being worked out by the various committees in charge.

Messrs. W. M. Huff and Fred White have the details of the general arrangements in hand, and Sam Helm and J. Y. Stewart and Mesdames R. B. Mitchell, Tip DeAmmon and M. A. Pyburn are the committee on programs and stunts. Mr. Nick Parrish heads the ice water committee, Bill Rochelle and Gene White are the soda dispensers, and Mesdames W. J. Seelig, T. J. Tankersley, W. W. Hulbert, W. A. Martin, Jr., M. A. Pyburn, R. B. Mitchell and C. C. Albright

are the providers of the ice cream cones for the crowd. Mrs. W. C. Van Hook has very generously consented to donate an immense cake to be presented to the handsomest man present—the judges of this beauty contest to be Mrs. Mabel Boltz, Mrs. Alice Holloman and Miss Ethel Fendley.

The affair is for members of Corsicana Chapter No. 118, and their families, including the youngsters, but all Eastern Stars in the city are invited. It is to celebrate the birthday of Robert Morris, founder of the Order of Eastern Star.

The crowd will assemble at the Masonic Hall at 7 p. m., Tuesday, and autos will be provided for all those without conveyance. A large attendance with an abundance of good "eats" is promised.

political campaigning in Texas. On Wednesday he traveled more than 200 miles and made three speeches at Bryan, Hearne and Cameron. Today he spoke at Commerce in the morning, Cisco this afternoon and will speak at Fort Worth this evening.

Former Governor James E. Ferguson made only one address on Wednesday—at Sealy. However, his wife, Governor Ferguson, issued through the press another statement denouncing Moody's candidacy and claiming that the paramount issue of the campaign is the Ku Klux Klan.

Moody Cheered at Cameron. Milam county, of which Cameron is the seat, gave "Ma" a plurality in the first primary. The crowd that greeted Moody there cheered him when he declared "Fergusonism" would be buried beneath an avalanche of votes Saturday.

"The people of Texas are through with Jim Ferguson," said Moody, "and his daily statements to the press are not going to distract the attention from the main business they will have on hand next Saturday. His manifesto is buried under the name of the Governor, which appeared in today's papers. There is no more relation to this campaign than any paragraph taken at random from the Encyclopedia Britannica would have."

Charge Against Ferguson

Perhaps the most interesting charge from their headquarters in the week was that made last night by Cullen Thomas of Dallas in a Moody address at Rockwall. Thomas declared that the Imperial Sugar Company executed a contract with the Prison Commission, approved by James E. Ferguson when he was governor in 1916, which gave to that company a "practical monopoly on all the sugar cane raised on the state farm, for a period of ten years."

This charge was made in reference to the question of removal of the prison system from its present location. He further charged Mr. Ferguson had been employed as counsel for interests that opposed the prison change "at a salary of \$20,000."

A large crowd greeted Ferguson at Sealy, where he repeated charges made earlier in the run-off campaign. He declared that Moody plans, if elected governor, to sell the present penitentiary properties and establish a new prison system. Such plans, he declared, would result in huge loss to the state. Ferguson renewed his charge that there is an alliance between Moody and the Ku Klux Klan, asserting that "Dan Moody is not attacking the Klan and it makes no difference whether he belongs or not. Just as soon as the Governor got back into the race they quit making the demonstrations they had when they thought Moody had been nominated."

Thomas' Statement Denied.

By Associated Press. Houston, Texas, Aug. 26.—Referring to statements by Cullen F. Thomas in which he charged that the Imperial Sugar Company of Sugarland enjoys a monopoly in the handling of sugarcane grown on lands owned by the Texas prison system, W. T. Eldridge of Sugarland said here Thursday:

"It is not true that there is an monopoly in the contract with the prison commission. The contract provides that payments for cane must be made in accordance with the New Orleans sugar market. We have no control over that market."

The contract referred to was made during the administration of Thomas M. Campbell."

of Blooming Grove Friday night, to which representatives of the Corsicana Chamber of Commerce have been invited.

The need of the various communities of the county working hand in hand in such matters as a Junior College, permanent highways, a county fair and the like is seen as a necessary factor in achieving results. It is possible that some sort of county wide organization for the furtherance of progress in Navarro county may be proposed Friday night.

The luncheon club of Blooming Grove business men has had a big part in the civic development of the town since its organization. R. B. McCormick is president and Otis Cole is secretary.

R. J. Jackson is chairman of the Corsicana Chamber committee to work with Blooming Grove in this co-operative movement. Other members of the committee are Lowry Martin, T. J. Walton and A. A. Allison. These and possibly others are expected to attend the Friday night meeting.

**CLAUDE POLLARD OF
HOUSTON SPOKE HERE
FOR HIS CANDIDACY**

**KERENS LIBRARY IS
FORMALLY OPENED TO
PUBLIC ON TUESDAY**

Claude Pollard, of Houston, addressed a responsive assembly of voters here Monday night in the interest of his candidacy for attorney-general. The speaking was held in the district courtroom of the court house. County Judge Warren Hicks presided. G. L. Jester introduced Mr. Pollard.

Richard Mays spoke briefly of Mr. Pollard's qualifications as a lawyer and his fitness for the attorney-generalship. Mr. Pollard and Mr. Mays both are past presidents of the Texas State Bar Association.

M. Mays produced a written endorsement of the members of the local Bar Association, saying that all the lawyers, except three, of Navarro county had endorsed Mr. Pollard's candidacy, based on qualifications, experience and general fitness to be the State's chief law officer.

It was urged that the office is, strictly speaking, not a political office, but is one of more responsibility and importance than perhaps the office of governor. The attorney general's office has nothing to do with State's policies, but safeguards the State's legal rights in all civil matters.

Mr. Mays said the attorney-general's office was not regarded with so much importance until James Stephen Hogg and Chas. A. Culberson occupied it. These men, he said, elevated and dignified the office, and brought it to the attention that it is a very important office, and it has been looked upon in that light ever since. Therefore, he pointed out, care should be exercised in electing a man for the place.

Judge Hicks made a short talk outlining Mr. Pollard's legal experience covering a period of 25 years. Mr. Pollard served as county and district attorney, and as assistant attorney general under R. V. Davidson, and was responsible for the upholding of the intangible assets law, among other things.

Mr. Jester spoke of Mr. Pollard's 25 years experience as a lawyer also, and said he was also active in community affairs. While living at Kingsville, Mr. Jester recalled, Mr. Pollard was president of the school board, and was instrumental in locating one of the State colleges there. He is now vice president of the school board of Houston, and is not only active in educational affairs, but is active in church affairs. Mr. Jester declared.

Mrs. Wm. Noble spoke of her life-long acquaintance with Mr. Pollard's family. She has known Mr. Pollard since early childhood, and she urged support for him in the coming primary election.

Mr. Pollard launched into a lengthy discussion of the requirements of the office he seeks. He declared the issue now is just the same as it was in the first campaign—that of qualification and experience. He is opposed in the run-off election by James V. Allred of Wichita Falls. His opponent, he said, is too young and has had too little experience. That he has 25 years experience against five years experience, Mr. Allred, he said, had been practicing five years, and had served as district attorney twenty-seven months of that time. In this connection he urged that the attorney-general's office has to deal with civil matters solely, and that Mr. Allred's experience, short as it is, is confined to criminal matters.

He charged Allred with attempting to resort to the trick of a demagogue in order to divert the minds of the voters from the real issue, that of qualification and experience.

The speech was received throughout with splendid attention. It was impressive, and the candidate spoke to good advantage. At times he was cheered and applauded.

The speaker emphasized that the office is one that requires a lawyer to fill with credit and profit to the State, and he pitted his qualifications and experience against his opponent. In discussing the statement of Ferguson, in which he declared he (Ferguson) would support him (Pollard), the speaker said Allred and B. Y. Cummings of Wichita Falls went to see Ferguson and got him to appoint Allred's brother in his place as district attorney. After this Allred was profuse in his thanks to the Fergusons for having appointed his brother to the office he resigned from and that Jim

**FUNERAL SERVICES
MRS. ALICE DORMAN
WERE HELD TODAY**

**CONSOLIDATION OF
LIMESTONE COUNTY
SCHOOLS APPROVED**

Special to the Sun.

Kerens, Aug. 25.—The Kerens public library was formally opened Tuesday morning at 9 o'clock. The opening was unlike the formal opening of a bank, as no flowers were sent, but the interest of Kerens people was manifested by their calling for books, and their book donations. The membership of the library is being increased under the direction of the Pioneer Literary Club of the city. The library is located in the Kerens National Bank building, and is open only on Tuesdays and Fridays. Members of the women's clubs of the city are the librarians.

**AGED KERENS WOMAN
SEVERELY SCALDED
BY BOILING WATER**

Special to the Sun.

Kerens, Aug. 25.—Mrs. McCreary aged mother of B. B. Jones of Kerens, is in a very critical condition as a result of being scalded on the hip, knee and both feet. Mrs. McCreary was lifting a kettle of boiling water from a cookstove when the handle of the kettle slipped off, spilling the boiling water on her body. All the flesh is off of her feet.

Ferguson was supporting him in this race.

Alred saw the Moody band wagon going along after the first primary, and in running after it said something about the governor's race, in which he tried to drag the race for governor into this race, and Jim Ferguson, after having supported Alred, and unsolicited by me, came out for me, while I never supported Ferguson in a primary in my life," he said.

of the county, she having been

Special to the Sun.

Groesbeck, Texas, Aug. 24.—Another school consolidation has been effected in Limestone county, by approval of the county board of school trustees, according to Mrs. Cora Ferguson, county superintendent, who this week announced the consolidation of the Frost Creek school with the Groesbeck independent school district.

The Frost Creek school has had one teacher and 29 scholars. The school was joining the Groesbeck district.

During the services at the home and at the grave a quartette composed of Misses Drane and Parker and Messrs. Will Cheney and Sidney Brietz sang a number of the favorite hymns of the deceased. A large course of friends gathered at the home and then followed the remains to their final resting place and a great profusion of floral offerings were placed on the grave, speaking in a gentle manner of the love and esteem in which she was held by those who had known her most intimately and who in this way bespoke their love for her.

Active pallbearers were: Robert Irvine, J. L. Tucker, Earl Robinson, John Wilson, Graham Dickson, Maurice Keathley, E. B. Gaston and Lynne Wortham. Honorary pallbearers named were Dr. L. E. Kelton, W. J. Cheney, Joe Garner, J. E. Butler, A. P. Young, T. J. Walton, S. P. Story and J. E. Williamson.

Mrs. Dorman passed away just after midnight Tuesday morning after an illness of several weeks with her immediate family at her bedside. The body was brought to Corsicana late Tuesday via interurban and taken to the home of Mrs. Pressley where it lay until the funeral hour this afternoon. She had many friends in Corsicana and in the Black Hills and Cryer Creek sections.

Important Notice To Election Officials!

All election officials in Navarro County are urged to phone the Corsicana Daily Sun the results of the boxes over which they preside immediately upon completing the count Saturday night.

Special phones have been installed in the Sun building to handle the returns as phoned.

Phone numbers are 163—877—1460.

Just tell the phone operator to get the Sun Office at Corsicana for you.

It is important that there be no delay in the phoning in of your box. I will make my headquarters at the Sun office election night.

An efficient corps of tabulators will be employed at the Sun office and results will be given to the public Saturday night, both by megaphone, and thrown on the screen.

Your box is very important and it is only through the co-operation of all election officials that the complete count will be possible with the least possible delay.

GEORGE W. WALTON.
Chairman Navarro County Democratic Executive Committee.
